## SUMMARY

I am a dedicated MERN stack developer with expertise in HTML5, CSS3, JavaScript (ES6), Node.js, Express.js, MongoDB, and React.js. I excel in creating efficient, user-friendly web applications and developing robust RESTful APIs. Committed to continuous learning, I aim to drive innovation and solve complex problems through advanced web development techniques.

## EXPERIENCE

### Associate Software Engineer

**Sky IT Services**

December 2024 - September 2025

- Developed SEO-optimized and fast-loading web applications.
- Skilled in responsive web design and cross-browser compatibility.
- Proficient in Node.js and Express.js for building scalable RESTful APIs.
- Experience with MongoDB (Mongoose) and SQL databases for data storage and management.
- Developed secure authentication & authorization using JWT.

### Training Software Engineer

**SeeBiz PVT LTD**

January 2024 - July 2024, Lahore

- Completed comprehensive training in HTML, CSS, JavaScript (ES6), React.js, Node.js, Express.js, and MongoDB, gaining hands-on experience in full stack development.
- Applied skills in web development to design and develop responsive web pages.
- Utilized Node.js and Express.js to build backend services and RESTful APIs.
- Currently enhancing proficiency in advanced JavaScript and frontend frameworks.
- Gained practical experience in integrating frontend and backend components.

## PROJECTS

### Social Media App

[github.com/Masood-Abbas/Social-Media-app.git](https://github.com/Masood-Abbas/Social-Media-app.git)

- Developed authentication and authorization features using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Implemented secure user login and registration processes with JWT(JSON Web Tokens).
- Managed user roles and permissions to control access to various parts of the application.
- Designed and developed real-time functionalities, including like, comment, and reply features, using WebSockets.
- Ensured efficient data handling and real-time updates to enhance user interaction and engagement.
- Utilized React.js to create reusable components and state management using Context API.
